information or purchase order number to
218-477-4450

This Minnesota Department of Health approved course will focus on basic nursing skills and will be presented through the use of lecture, textbook, handout materials and demonstrations. Skills are demonstrated and practiced in a supervised laboratory setting and clinical environment.

Attendance is mandatory to successfully complete this course.

All students must have a background study and a mantoux TB skin test done at the beginning of the course as a requirement for clinical placement in Minnesota.

Completion of this course enables you to take the Nurse Aide Competency Evaluation. The competency evaluation is a separate fee of \$150.

After successfully completing the competency evaluation, you will be placed on the Minnesota Nursing Assistant Registry. This registration can be easily transferred to North Dakota and most other states.
