

AMST2210 - Body Electrical and Mechanical II

Credits:	2 (1/1/0)
Description:	This course focuses on computer-controlled body components and safety systems. Diagnostics will involve the use of scan tools, multimeters and lab scopes applied to a variety of body controlled devices. Students will learn how controllers communicate with each other through bussed circuits.
Prerequisites:	<ul style="list-style-type: none"> • AMST1101 • AMST1111 • AMST2206
Corequisites:	
Pre/Corequisites*:
