Accessibility Resources – Student Responsibility

- Complete the Accessibility Resources Application and meet with Accessibility Resources Personnel.
- Provide Accessibility Resources with documentation of disability and recommendations made by the testing specialist. A Release of Information may be required by the agency.
- After Accessibility Resources receives the documentation and recommendations, the student and personnel work together to identify appropriate accommodations.
- If you are eligible, Accessibility Resources coordinates the provision of reasonable accommodations.
- Communication with faculty is the responsibility of both Accessibility Resources personnel and the student.
