MINNESOTA STATE COMMUNITY AND TECHNICAL COLLEGE

Policy Name: Acceptable Use of Computers & Information Technology Resources

Policy

Computer and information technology resources are essential tools in accomplishing the mission of Minnesota State Community and Technical College. These resources must be used and managed responsibly in order to ensure their availability for the competing demands of teaching, scholarship, administration and other mission-related uses. Procedure #5200-2-02 establishes responsibilities for acceptable use of Minnesota State Community and Technical College information technology resources.

Purpose
The purpose of this policy is to ensure the appropriate use of information technology resources.

Responsibility
Chief Information Officer Inform the College community about the policy and ensure compliance.
