

# ADMM2258 - Certified Professional Coder Examination Review

Credits:	1 (1/0/0)
Description:	This course prepares students to take the Certified Professional Coder (CPC) examination offered by the American Academy of Professional Coders (AAPC). Review of Current Procedural Terminology (CPT), International Classification of Diseases (ICD) and Healthcare Common Procedure Coding System (HCPCS) Level II coding is an integral part of this course. Practice examinations will be taken under timed conditions. The course assists the student in establishing a personal plan for continued development in preparation for the certification examination. This course also prepares students to take other nationally recognized coding examinations.
Prerequisites:	<ul style="list-style-type: none"> <li>• ADMM1152</li> </ul>
