COSM1005 - Hair Reformation

Credits:	1 (1/0/0)
Description:	In this course, students learn how to change the existing hair's texture, focusing on two broad categories of texture services: permanent hair reformation treatments and semi-permanent hair reformation treatments. Students also learn various types of sodium hydroxide and thioglycolate relaxers, allowing them to provide a wide range of hair reformation services on different hair textures.
Prerequisites:	
Corequisites:	
Pre/Corequisites*:	
Competencies:	1. Describe hydroxide relaxers and the various types and strengths that are available to relax hair. 2. Define ammonium thioglycolate relaxers and how to use them. 3. Identify the four types of tools used for hair reformation services and the proper decontamination practices required to remain compliant with the Minnesota Board of Cosmetology. 4. Outline the safety guidelines and precautions for hair reformation services. 5. Explain how to conduct a thorough hair reformation client consultation. 6. Observe proper steps in performing hair reformation services.
MnTC goal areas:	None

**Can be taking as a Prerequisite or Corequisite.*
