

## COSM1005 - Hair Reformation

Credits:	1 (1/0/0)
Description:	In this course, students learn how to change the existing hair's texture, focusing on two broad categories of texture services: permanent hair reformation treatments and semi-permanent hair reformation treatments. Students also learn various types of sodium hydroxide and thioglycolate relaxers, allowing them to provide a wide range of hair reformation services on different hair textures.
Prerequisites:	
Corequisites:
