

ED2210 - Education Technology

Credits:	3 (3/0/0)
Description:	This course is designed to provide future educators with the skills necessary to integrate technology to support learning for students in K-6. Students in this course utilize technology to gather and develop classroom lesson plans. Students develop technological skills and explore many different tools for planning, instruction, communication and record-keeping. Students also learn to apply their skills and knowledge in a variety of classroom environments.
Prerequisites:	<ul style="list-style-type: none"> • ED2204
Corequisites:	
Pre/Corequisites*:	
Competencies:	<ol style="list-style-type: none"> 1. Demonstrate knowledge and understanding of concepts related to technology and student learning. 2. Describe areas of exceptionality in learning, including learning disabilities, perceptual difficulties, and physical or mental challenges, gifts and talents. 3.
