

## ELEC2238 - Low Voltage Wiring

Credits:	2 (1/1/0)
Description:	This course provides students with an understanding of installation procedures and National Electrical Code (NEC) requirements for coax, telephone, fire alarm, security, fiber optic, cat 4, cat 5 and other low-voltage wiring systems.
Prerequisites:	
Corequisites:	
Pre/Corequisites*:	
Competencies:	<ol> <li>Describe NEC requirements for power limited.</li> <li>Demonstrate safe work practices.</li> <li>Describe various cable uses, applications and proper installations.</li> <li>Demonstrate proper selection, uses and installation methods for various cable types.</li> <li>Identify various cable types.</li> <li>Perform proper splicing and terminations.</li> <li>Demonstrate ability to properly follow NEC requirements for low voltage installations.</li> </ol>
MnTC goal areas:	None

<sup>\*</sup>Can be taking as a Prerequisite or Corequisite.
