

EMS1210 - Emergency Medical Technician Fundamentals Lab

Credits:	1 (0/1/0)
Description:	The purpose of this laboratory course is to discuss, perform and relate the concepts taught in the EMT Fundamentals course. This will be done in group discussions and demonstrations, and in individual and group scenarios. This hands-on course will teach and test the physical and mental skills necessary for the appropriate assessment and treatment of patients in small groups and/or individually. Instruction includes rigorous questioning and skill demonstration in front of instructors and peers.
