HITM2283 - Intermediate Diagnosis Coding

Credits:	3 (1/2/0)
Description:	This course is a continuation of coding guidelines using the current International Classification of Diseases. Students practice assigning diagnosis codes to clinical information found in a health record while maintaining ethical coding standards.
Prerequisites:	• BIOL1170 • HITM1236 • HLTH1116
Corequisites:	
Pre/Corequisites*:	
Competencies:	1. Interpret proper phrases and terms of diseases, pathological conditions and systems of the body. 2. Verify documentation in the health record is timely, complete and accurate. 3. Abstract clinical information from medical documentation. 4. Utilize various coding references for diagnosis coding. 5. Determine the principal and secondary diagnoses from patient encounter documentation. 6. Apply diagnosis codes according to current regulations and guidelines. 7. Apply coding concepts to chapter-specific guidelines. 8. Comply with ethical standards of practice. 9. Identify the social determinants of health in clinical documentation. 10. Describe information systems utilized in the assignment of diagnosis codes.
MnTC goal areas:	None

**Can be taking as a Prerequisite or Corequisite.*
