

## HVAC2214 - Hot Water Heating

Credits:	2 (2/0/0)
Description:	This course covers both hot water baseboard and in-floor heating, with emphasis on calculations involved in hydronic heating.
Prerequisites:	• HVAC1128
Corequisites:	
Pre/Corequisites*:	
Competencies:	<ol> <li>Define heat losses.</li> <li>Design low-pressure baseboard hydronic heating systems.</li> <li>Explain hydronic flow principles.</li> <li>Calculate flow rates and friction loss.</li> <li>Demonstrate safe heating/ventilating/air conditioning (HVAC) practices.</li> <li>Define low-pressure steam systems.</li> <li>Design low-pressure in-floor hydronic heating systems.</li> </ol>
MnTC goal areas:	None

<sup>\*</sup>Can be taking as a Prerequisite or Corequisite.
