PWST2312 - Advanced Motorcycle Systems

Credits:	3 (1/2/0)
Description:	This course is designed to test troubleshooting skills and knowledge. Students will be presented with motorcycle problems and, using a systematic approach, students will identify and repair the unit. This course is designed to simulate the role of a technician in a dealership. Students will be expected to write a work order, estimate repairs, make the repair and finalize the work order.
Prerequisites:	
Corequisites:	
Pre/Corequisites*:	
Competencies:	1. Demonstrate shop professionalism. 2. Write customer work orders. 3. Locate and estimate parts costs. 4. Repair motorcycle failure. 5. Communicate with customers. 6. Organize and maintain a neat and orderly work area. 7. Demonstrate the efficient use of tools of the trade. 8. Demonstrate a systematic approach to troubleshooting. 9. Demonstrate electrical system troubleshooting.
MnTC goal areas:	None

**Can be taking as a Prerequisite or Corequisite.*
