

Concurrent Enrollment Program (CEP)

M State partners with more than 40 high schools to offer high-quality, rigorous college courses taught in high schools by qualified high school instructors through our nationally accredited Concurrent Enrollment Program. Concurrent enrollment course offerings include an array of both general education/transfer and career and technical course options. Students benefit by getting a boost on their postsecondary future by earning college credit and saving money without leaving their high school.

- STUDENTS: Serving more than 1,800 students per academic year
- PARTNERS: Over 40 high schools
- CREDITS: 14,000+ credits per academic year
- SAVINGS: Over \$2.25 million saved by students and families *(based on M State tuition of \$160.70 per credit)*

eCampus in the High School (eCHS)

eCampus in the High School partners with 19 high schools to provide students with access to online college courses in their high school in both general education/transfer and career and technical course pathways. M State provides students with services and resources that promote success in the online classroom.

- STUDENTS: Serving more than 250 students per academic year
- PARTNERS: 19 high schools
- CREDITS: 2,000 credits per academic year
- SAVINGS: Over \$320,000 saved by students and families *(based on M State tuition of \$160.70 per credit)*

Postsecondary Enrollment Options (PSEO)

The Postsecondary Enrollment Options program allows eligible high school sophomores, juniors and seniors to take college-level courses on an M State campus or online and earn both high school and college credit. These courses are funded through the Minnesota Department of Education, which covers the cost of tuition and books.

- STUDENTS: Serving more than 600 students per academic year
- PARTNERS: Over 50 high schools
- CREDITS: 5,500+ credits per academic year
- SAVINGS: Over \$850,000 saved by students and families *(based on M State tuition of \$160.70 per credit)*

K12 Special Events

M State offers numerous hands-on, interactive career pathway activities including day camps, summer camps, career workshops, health care clinical days, college and career shadowing, and employer and industry tours. Schools and students can select from scheduled programming, or we can work collaboratively to develop a customized experience tailored to each partner high school's unique goals and needs.

Career Exploration

We work closely with high school teams to implement one-on-one, small or large group college and career planning activities and events. Career assessment activities, workshops, and career exploration and planning are among the most popular services. Additionally, we provide students with assistance in launching personalized career tracks and connect them with employers and job opportunities.
