

GPA Eligibility Agreement of Understanding

M State Concurrent Enrollment Program (CEP) and eCampus in the High School (eCHS)

- ✓ **You are responsible** for your attendance, participation and engagement in this college course.
- ✓ **Expect two to four hours of homework weekly for each course credit.**
- ✓ **After the drop period ends, there is a withdrawal process that must be followed.** Withdrawing from a course will result in a grade of 'W' on your transcript. Failure to follow the withdrawal process will most likely result in a failing grade, which will negatively affect your high school and M State GPAs.
- ✓ **The grades you earn taking a college course for credit are part of your permanent college transcript,** so it is important to do your best in all courses. If you have academic questions or concerns, please work with your high school counselor immediately so they can advise you on your best options.
- ✓ **You are responsible for meeting Satisfactory Academic Progress (SAP) standards each semester.** Under our SAP policy, students must maintain a cumulative GPA of 2.0 and a completion rate of 66.66 percent (withdrawals, incompletes and failing grades would all adversely affect the successful completion percentage) to stay off academic warning.

If on academic warning, you have one semester to raise your GPA and completion rate or you will be placed on academic suspension. This policy changes for students who have taken fewer than 24 total credits. If you are concerned about your grades at any time, please contact your high school counselor.

- ✓ **For eCHS students - email is the official means of communication at M State.** Both staff and instructors will communicate with you via email. We recommend that you check your M State student email account daily as some of these emails may require action on your part. You will receive an M State student email account after registering for courses.

By signing this agreement you understand that you are responsible for all outcomes in your college experience and you are confident that you are ready for college level courses.
