

MAHNOMEN FIRE & RESCUE SEMINARS

**Saturday & Sunday
January 29 & 30, 2022**

*Minnesota State Community
& Technical College*

ALL CLASSES ARE 12 HOURS IN LENGTH

A **Fire and Arson Investigation**

FOR: All Fire Service Personnel

OBJECTIVE: This course will review the firefighter responsibility in fire cause and origin investigation. Legal aspects of fire investigation will be covered including both criminal and civil law. The process of fire investigation as outlined in NFPA 921 will be covered as well as topics including fire patterns, common fire causes, evidence handling and preservation, arson motives, fire deaths and documentation of the incident. This course meets components of the NFPA 1670 Standard.

B **Grain Bin Rescue**

Hands-On Class

(prop for training will be inside)

***Helmet (rescue or firefighter style) with chin strap, hard sole work boots that lace up & coveralls/duty uniforms or blue jeans are required**

FOR: All Fire & Rescue Personnel

OBJECTIVE: Students completing the course will gain the knowledge of how most bin entrapments happen and how to safely evaluate the hazards associated with grain bins. Student will learn how to safely extricate a victim that is engulfed in a grain storage facility. In the hands-on portion of the class, students will utilize a state of the art grain bin simulator to review safety equipment, victim removal procedures & practices and conduct hands-on rescues from a grain bin. This course meets components of the NFPA 1006 & 1670 Standards.

C **Leadership in Supervision: Perspectives in Thinking**

(Recommended that students have ICS-100 & ICS-200 training)

FOR: All Fire & Rescue Personnel

This is a National Fire Academy Course

OBJECTIVE: This course provides the supervisor with the conceptual foundation and framework for success in leadership roles by exploring creative, analytical, political and critical thinking perspectives. The course addresses skills needed for assessing situations from multiple perspectives, making critical decisions, fostering creativity and innovation, and using persuasion.

D **Modern Fire Attack in Urban & Rural Settings**

FOR: All Fire & Rescue Personnel (especially interior attack and command officers)

OBJECTIVE: This course is an informational discussion of the "new" fire chemistry, a review of hostile fire events, descriptions of the on-going NIST/UL studies, and the attack methodology that can be used to solve the problems that arise in rural & urban settings. The course is designed to encourage a debate on how modern fire attack methodology can fit into the rural & city environments in greater MN. Focus will be placed on water supply and the first 10 minutes of on-scene actions at a working structure fire. The focus of this class is to show the need for fire ground commanders to re-evaluate what tactics are being used by their personnel during initial attack operations. This course meets components of the NFPA 1021 Standard.

E **New Firefighter Orientation to Fire Behavior, Safety, PPE/SCBA, Ladders & Hose**

Hands-On Class

***Full Turnout Gear and SCBA required**

FOR: New Fire & Rescue Personnel

OBJECTIVE: After completing this orientation, the student will have received very limited information on these subjects. This class is designed as an orientation to these subjects until the student can enroll in the full Firefighter I program. This course meets components of the NFPA 1001 Standard.

**CLASSES CONTINUED ON
NEXT PAGE**

F **Relief Association - In-Depth Review**

***Bring your Association Bylaws and Records if you have questions**

FOR: All Relief Association Officers, Trustees & Members

An advanced Relief Association class will be offered at the Detroit Lakes Fire School.

OBJECTIVE: This course will review state statutes that control how the relief association runs. Students will learn the outside agencies that control or can be of assistance, new statutes affecting your relief association in the future and proposed changes you will need to adapt in the near future. Discussions will include pension plans, bylaws, best practices, policies, relationships, investing and statewide plan.

G **Search Techniques**

Hands-On Class

***Full Turnout Gear, SCBA & 1 Spare Bottle required**

FOR: All Fire & Rescue Personnel

OBJECTIVE: This course is designed to provide the firefighter with the basic understanding of search techniques during an emergency situation. Students will also learn advanced techniques while participating in SCBA confidence skills. The students will improve their skills in making decisions prior to performing a search and having alternatives to the search during the emergency. This course will test the student's ability to maneuver in tight or limited spaces. This course meets components of the NFPA 1001 & 1006 Standards.

All courses have been approved by the Minnesota Board of Firefighter Training & Education
