STEAM ENGINEERING - LOW PRESSURE BOILERS
18-hour course designed to prepare the boiler operator or those preparing for employment as a boiler operator to take the Minnesota Low Pressure (Level C) Boiler Exam for the following classes: Special Engineer, Second Class Engineer, First Class Engineer or Chief Engineer. This course includes topics like hydronics, hot water boiler operation, steam boiler theory, steam boiler construction and operation, steam distribution, condensate recovery, feedwater system, combustion theory and control, boiler efficiency, draft control, boiler steam feedwater treatment, steam traps, and boiler safety.

STEAM ENGINEERING – SPECIAL LICENSURE PREPARATION – LOW PRESSURE REVIEW
8-hour course designed to help the prospective engineer execute his/her job more safely and efficiently. This is considered a prep class for the Special Boiler License; emphasis will be on preparing for the State Boiler Examination. In addition, this class is also considered a review for other low-pressure applications and could assist in advancing from one license classification to another.

REGISTRATION AND CONTACT INFORMATION
Payment is due at time of registration.
