Course Overview

This comprehensive course is designed to train personnel in various healthcare settings, including nursing homes, to safely administer medications.

Minnesota Medication Administration Certification

Course Structure: 48-hour classroom/lab training

Prerequisites:

- Completion of a Minnesota Department of Health-approved Nursing Assistant training program (Proof required at registration)
- Current Nursing Assistant registry status

North Dakota Medication Assistant II Certification

Course Structure: 48-hour classroom/lab instruction **Additional 32-hour clinical component required for certification

Prerequisites:

- Current Certified Nurse Assistant (CNA) registry status

Clinical Requirement:

- Students must be sponsored by their employing North Dakota facility to participate in the 32-hour clinical component
- Alternatively, students may complete the 48-hour classroom/lab training first and secure a sponsoring facility within **six months** to complete the clinical requirement.
