(\*Required information)

Minnesota law (M.S. 135A, 14) requires that all students born after 1956 and enrolled in a public or private postsecondary school in Minnesota be immunized against diphtheria, tetanus, mumps and rubella, allowing for certain specified exemptions (see below). This form is necessary to provide the school with the information required by the law and will be available for review by the Minnesota Department of Health and the local community health board.

Minnesota state law requires that students born after 1956 must be immunized against:

- Tetanus/diphtheria (Td): once every 10 years
- Measles/mumps/rubella (MMR): One dose given on or after first birthday (for complete protection against measles, a second MMR vaccine is recommended)

Students enrolled at M State who fail to submit the required information within 45 days of the beginning of the semester cannot remain enrolled.

To find out whether you are adequately immunized and the dates of your immunizations, check with your parents, physician's office or high school immunization record. If you cannot obtain the information or have not been immunized according to the law's requirements, schedule an appointment with your physician or clinic immediately.

Exemptions are permitted under the following conditions:

- **Conscientious Exemption:** Some people may be exempt from immunizations based on their religious or other conscientiously held beliefs. If you request a conscientious exemption, you must complete Part 4, including notarization.

No action is required for the following exemptions. However, if you plan to enroll in multiple courses or on-campus courses, this form must be on record.

- **Enrolled in Only One Class.** Students who will enroll in one class only are exempt from this requirement.
- **Online Students.** Students who will enroll solely in online classes are exempt from this requirement.
